Hello,

I am Connie Capps, a North Carolina native, and I have found the beauty of quilt patterns to be as much fun to paint as they are to sew.

Wooden barn quilts originated in Ohio many years ago to celebrate the quilting heritage but have transformed to indoor and outdoor décor –not just for barns. They brighten up fences, porches, garages, or sheds. These colorful paintings are made to withstand the elements, but they are also beautiful indoors. I use quality paint on sanded and primed MDO sign board with great attention to detail. Then they are framed and sealed with non-yellowing sealant. Monograms or logos may be added as well.

I look forward to meeting you all and sharing your passion for quilting.
